

COVID-19 Safety Message

Your safety is important to us, and at Vision Unlimited we are open and have resumed normal operations with additional changes to promote a safe environment.

Please be assured that every precaution is being taken to safeguard both you and our team members.

Here are some of the safety measures that are now being incorporated for all visits:

- Temperatures are being taken of all patients and staff before they can enter the building.
- Staff are always wearing face coverings.
- A COVID screening questionnaire will be completed before each patient enters the waiting room.
- We have limited the capacity of our waiting room to comply with social distancing recommendations.
- We have a meticulous sanitizing protocol in place that ensures that all high-contact surfaces are sanitized between each patient (counters, handles, exam tables, chairs, etc.). Low contact surfaces are sanitized multiple times daily (cabinet doors, drawer faces, etc.).
- We are offering patients the option to wait in their car or outside our office while waiting for the exam room to become available. Patients will be called when a room is ready for them.
- Visitors accompanying patients will not be allowed into our facility unless necessary for translation or ambulatory assistance.

We ask that patients:

1. Wear a face covering while in the office
2. Practice social distancing in the waiting area
3. Reschedule appointments if they are feeling ill or have any symptoms of COVID-19

Thank you so much for your support and patience during these unprecedented times. Our team is dedicated to providing you the same excellent experience that you are used to experiencing at Vision Unlimited Eyecare. Please do not hesitate to contact us with any questions.
